ABSTRACT

Ethical English instruction has paved the way for every religion to make its interpretation. From the Islam religion perspective, such interpretation is still under research. This study describes how ethical English instruction takes place in an Indonesian Islamic higher education institution; how literature, particularly Islamic literature, becomes a factor of ethical English instruction; and the students' transformation through ethical English instruction. Applying a content analysis method, this case study involved 60 freshmen students of the English language education program of State Islamic Institute of Metro, Lampung, Indonesia. The research data was drawn from five main data sources, namely interviews, classroom observations, teaching materials, samples of students' works, and questionnaires. This study shows that (1) the use of Islamic literature to teach ethical English in the Indonesian Islamic higher education is potential; (2) text exploitability becomes a dominant factor in ethical English instruction; and (3) a contextualized approach, derived from the existing global approach and local teaching method, transforms the students positively. It is concluded that ethical English teaching within Indonesian Islamic higher education ought to utilize Islamic literature and be conducted through a contextualized approach.

Note. 2 About author's biography:

Firstname M. Lastname and the other authors may include biographies and photographs at the end of regular papers. Photographs should be cropped into 26mm in width and 32mm in height. The first paragraph may contain a place and/or date of birth (list place, then date). Next, the author's educational background is listed. The degrees should be listed with type of degree in what field, which institution, city, state or country, and year degree was earned. The author's major field of study should be lower-cased.

The second paragraph uses the pronoun of the person (he or she) and not the author's last name. It lists military and work experience, including summer and fellowship jobs. Job titles are capitalized. The current job must have a location; previous positions may be listed without one. Information concerning previous publications may be included. Try not to list more than three books or published articles. The format for listing publishers of a book within the biography is: title of book (city, state: publisher name, year) similar to a reference. Current and previous research interests end the paragraph.

The third paragraph begins with the author's title and last name (e.g., Dr. Smith, Prof. Jones, Mr. Kajor, Ms. Hunter). List any memberships in professional societies like the IEEE. Finally, list any awards and work for professional committees and publications. Personal hobbies should not be included in the biography.

Firstname M. Lastname includes the biography here.
