ABSTRACT
A STUDY OF CODE MIXING AND CODE SWITCHING IN SPEAKING CLASS AT THE THIRD SEMESTER ENGLISH STUDY PROGRAM OF IAIN METRO LAMPUNG

By:
QORINA AL- QONITA USWATUN HASANAH EFFENDI

The primary goal of this research is to find out the use of code mixing and code switching contained used in speaking class at the third semester English study program of IAIN Metro Lampung. Researcher try to prove that the IAIN Metro use code mixing and code switching could be as the one of media to improve the language which so many various as long as be able use responsible.

This present research is qualitative in which researcher collects the data in the form of words or pictures rather than number. This research collect the data use purposive sampling technique. The data analysis this research used by Creswell theory.

The finding of the research shows that code mixing and code switching usage in the speaking class at the third semester English study program of The State Institute for Islamic Studies (IAIN) Metro Lampung was code mixing 60% which 7% for illustration of insertion and 53% for illustration of alternation and 40% illustration of code switching which 27% for illustration of intrasentential and 13% for illustration of tag switching. Code switching and code mixing often used in the speaking class at the third semester occurred because of some factors. Firstly, speaker want to make balance language to respondent because the speaker has social basic which enable to switch or mix language. Secondly, code mixing and code switching also occur because students have less vocabulary so that they mix or switch their language during learning process while the lecture mix or switch his language to make students understand the explanation easier. It could conclude that utilization of code mixing and code switching in the speaking class at the third semester English study program of The State Institute for Islamic Studies Metro occurred naturally.

***Key word**: Code mixing, code switching, speaking class.*
